

# **Ellie Woods Manifesto**

**Hi, my name is Ellie I am 18 years old and am currently doing my Alevels. If you've ever read or heard a manifesto before, then you will probably think you know exactly what I'm going to say next. You think im going to talk about what I think. What my point of view is and what I'm going to do to make what I want happen.**

**Wrong**

**I'm not going to tell you what I think, because I'm not standing to be MYP for me. Of course I have opionins but being elected is primarily about you: I want to do this for you and all the other young people in B&NES. I see the job as listening to you so that I am able to represent your views in the Youth Parliament effectively and thoroughly.**

**I am committed to puttin your views frist and I honestly belive that I am up to the job. I've been involved with DAFBY, the group that's supports our local MYP, for over 2 years now am fully aware of what the whole thing entails, more so than many.**

**Ultimately, I really do feel that if you vote for me I will do my very best to make your views count. After all, that's what I believe being MYP is all about.**
