

VOTE STEFAN

Hello I'm **Stefan Di-finizio**, I'm 14 years old and I attend Wellsway school. I wish to represent and promote the issues important to you, that you can't vote for, yet have rights to.

What will I do for you?

- My main local issue is to lower public transport costs and make transport more accessible for young people.
- I believe that the press gives young people a bad image and I would hope to turn that around by promoting the good and helpful things the majority of young people do in their community.
- I will also work with the Youth service to create opportunities for young people to participate and be involved in more activities with their friends to learn new skills and have fun at the same time.

Skills and Experience I Have . . .

- I am a good communicator and confident when speaking with adults
- I already have a lot of experience working with the Youth Service.
